SOLID WASTE ASSOCIATION
of North America

at **McMENAMINS**
EDGEFIELD

Troutdale, Oregon

The SWANA Northwest Regional Symposium Program Committee is requesting abstracts from persons interested in participating in the Technical Program of the 2012 Northwest Regional Symposium. We invite all of you to come and share your experiences with waste management, diversion, and recycling with your colleagues. We've identified some tentative session topics below, but welcome ideas for other sessions. Each presentation will last approximately one half hour, including questions and answers. Speakers are eligible for free registration to the Symposium on the day of presentation. We encourage everyone interested in presenting to prepare a paper to share your experiences. Slide presentations and outlines are also welcome.

Suggested Topics

- Storm water Collection and Treatment
- Waste to Energy / Alternative Technologies
- Resource Recovery
- GPS Technology in landfill construction and operation
- Landfill Closures –When to Begin and End
- Health and Safety Issues at Transfer Stations and MRFs
- OSHA Regulations and the Solid Waste Industry
- Compost and Food Waste Collection
- The Search for Crime Evidence at Landfills
- GHG Emissions
- Best management practices for prevention of bedbug proliferation

Paper Submission:

Please submit titles, abstracts, speaker name and biography, affiliation, address, phone number and e-mail address to:

- **Don Alexander**
Marion County Oregon
